For Immediate Release

Delcan Awards 20 Scholarships to Deserving Students

Toronto, Ontario, August 13, 2010 — Delcan Corporation, an award winning, multi-disciplinary engineering, planning, management and technology consulting firm, is pleased to announce the winners of our 2010 scholarship awards. Delcan's scholarship program was designed to recognize children of our employees who have demonstrated superior academic achievement and performed community service, and to assist the families of our employees with meeting the high costs associated with higher education. This year, Delcan has selected 20 deserving students to receive scholarships ranging in value from \$1000 to \$5000. Delcan's scholarship program was established 28 years ago and since that time monetary awards have been given to approximately 500 students. A brief summary of the recipients follows.

Richard Prince has been awarded the Peter J. Boyd Scholarship, which is accompanied by \$5,000. The Peter J. Boyd Scholarship is awarded to the student rated highest and is in honor of Delcan's former Chairman, Peter J. Boyd. Richard is entering his second year at California Baptist University, pursuing a degree in Communications. He is a member of the speech and debate team, and in his first year, Richard achieved a 3.9 GPA. Not only is he an academic, Richard is also a leader in the Focus Program at his college, where he assists new students with their transition to campus life. Richard is involved in intramural sports including volleyball, ping-pong and soccer, where he is responsible for recruiting, training and leading a coed volleyball team that competes within the division league. Richard volunteers at his church with the children's ministry, and musically through leading worship during bible studies. In his free time, Richard enjoys painting and playing an array of musical instruments.

Mitchell Belella is currently in his third year at McDaniel College and is pursuing a Degree in Business Administration. Mitchell has maintained a 3.2 GPA in his first two years of college while competing for his college's Varsity Basketball team and working as an intern for a CFO. After graduation, Mitchell hopes to spend some time on Wall Street where he can acquire additional experience in his field. Mitchell spends his summers volunteering his time at basketball camps at St. Maria Goretti High School and McDaniel College, where he not only teaches fundamental basketball skills, he also impresses upon the children how to act as mature young adults. In addition, Mitchell participates in Hoops for Heart, which raises money to prevent Heart Disease and Stroke.

Elizabeth Corbett is in her second year at Dalhousie University and is perusing a combined Bachelor of Arts Degree in Political Science and History to prepare her for a future as a public defender; where she desires to do her part in ensuring that everyone has equal access to legal advice and aid. Elizabeth has achieved a 3.75 GPA and is a member of Alpha Gamma Delta Sorority. Through her sorority, Elizabeth participates with the planning of events and raising money for the Juvenile Diabetes Association. In her free time, Elizabeth enjoys tennis and running.

Jessica de Laat is entering her third year at McMaster University and is pursuing a degree in Nursing, where she has maintained a 3.41 GPA. Jessica is currently the President of the campus club, Life is Beautiful, which raises money for local charities and for the under

privileged in the Dominican Republic. In addition, the club plans trips to the Dominican Republic to build homes for the poor. Jessica participates as a Welcome Week representative at her college and is also a representative of the Society of Off Campus Students (SOCS), where she helps students acquaint themselves with the University. Elizabeth participates in various leadership courses within her community. In her free time, she enjoys swimming and plays soccer in a local Women's League.

Sandra Dzever is entering her second year at York University and is pursuing a degree in Law. Sandra has volunteered her time with the Community & Legal Aid Services Program, an organization that provides free legal services to low-income individuals. While volunteering, Sandra was dissatisfied with her inability to help at the level she would have liked to. Being an immigrant of a war torn country, Sandra realized that attaining a Law Degree would best prepare her to provide the necessary help. While studying abroad in France, Sandra's eyes were opened to the growing immigration problems that culminated in civil unrest. This motivated her to fight discrimination through representation, advocacy and education, and encouraged her to pursue a career in Immigration Law. In her free time, Sandra enjoys reading and playing tennis.

Michael Harrison will be entering his first year at Rutgers University pursuing a degree in Psychology. Throughout his high school career, Michael achieved a 3.5 GPA. Michael is very involved in the Boy Scouts of America. As a Boy Scout, Michael has worked with several charities providing services such as the refurbishment of a homes for the disabled; tutoring adults who want to learn to read, write and speak English; collecting and distributing food for food drives; volunteering at a recycling center; documenting and cataloguing Shade Trees within his community; building butterfly gardens; restoring schools, parks and churches; building dog training equipment for the police; and relabeling and repainting fire hydrants and storm drains. Michael has volunteered for the Occupational Center of Union County, which provides services for the mentally and physically disabled. In his free time, Michael enjoys singing, playing the saxophone and acting.

Tomer Hoffman is entering his final year at Technion Israel Institute of Technology in the Doctor of Medicine program. He has already received his Bachelor of Science Degree in Medical Sciences and graduated Cum Laude. In the summer of 2009, Tomer provided volunteer medical services for 2.5 months in the paediatric ward at Kamuzu Central Hospital in Lilongwe, Malawi. It is Tomer's desire to make a contribution to the developing areas of Africa. He had such a great experience that now he is working to establish a student exchange program between his University and Kamuzu Central Hospital.

Emma Jasper is a fourth year college student at Marymount Manhattan College. She is pursuing a Bachelor of Fine Arts Degree in Acting. During the 2007 school year, Emma attended the London Academy of Music and Dramatic Arts (LAMDA), which is one of the top Drama schools in the world. Emma is especially interested in "High Comedy", a style of acting that features a plot filled with humorous characters and a witty comedic script. Emma also maintains a love for Shakespeare, which has led her to volunteer this summer with the Judith Shakespeare Company in New York City.

Jack Jasper will be entering his first year at the College of William and Mary and will be pursuing a degree in Global Studies. Jack has a high-level of interest in different cultures and how they interrelate and interact with one another. It is Jack's desire to work internationally in a profession that will allow him to travel the world. In high school, Jack

achieved a 3.8 GPA while participating as a varsity athlete in cross-country, track and field. Jack volunteers his time as a running coach for young children.

Olivia Lee is in her third year at McMaster University and is enrolled in the Arts and Science program to prepare her for a career in health care. She is very involved in her college and currently is the Program Advisor for the Society of Arts & Science; she is the Media Chair for the Student Health Education Centre and is a Student Liaison Office Tour Guide. Olivia volunteers with the Hospital for Elderly Life Program at her college, as well as participates in the Big Brothers Big Sisters In-School Mentorship Program. Olivia enjoys running, rock climbing, fitness, health and nutrition, the visual arts and Latin and etymology. Olivia previously received a Bilingual International Baccalaureate Diploma from the Toronto French School.

Ryan Maguire will be entering his first year at the University of Guelph pursuing a degree in Engineering. Particularly, Ryan is interested in Environmental and Water Resource Engineering, as he is passionate about contributing to the conservation of the world's natural resources. Ryan plays both hockey and soccer at house league and competitive levels and volunteers his time at optimist barbeques.

Jennifer McCall will be entering her first year at McGill University and is pursuing a degree in Biological, Biomedical and Life Sciences; and hopes to become a surgeon. Jennifer is very active playing rugby, ice hockey and running cross-country. Jennifer recently completed a three month exchange program in Luxembourg. She loves to travel and learn new languages. Jennifer is fluent in French and also speaks some German. Jennifer is a frequent blood donor and volunteers whenever the opportunity arises.

Holly Neate is entering her second year of college at the University of Victoria and is pursuing a degree in Biology and Earth and Ocean Sciences. She is seeking a career as a Marine Biologist, as she is passionate about the sea and the life that it holds, as well as the current issues surrounding climate change. Holly plans to further her education with a Masters Degree and would like to study abroad. She enjoys volunteering in her community as well as extracurricular activities. In her free time, Holly enjoys playing on the local soccer team.

Sabrina Nurmohamed is currently in her third year at the University of Western Ontario majoring in Medical Sciences, and hopes to become a physician. Sabrina has maintained a 3.91 GPA in her first three years of college. Sabrina is very involved in student advocacy and serves as an Academic Appeals Peer, Faculty Diversity and Equity Leader and University Students' Councilor. Sabrina has been elected to President of the Science Students' Council, which is an undergraduate society that represents Science students at the University. Sabrina is passionate about enhancing the student experience. This passion has encouraged her to spearhead negotiations with high-profile speakers and lobbying administrators for increased allotment of resources towards teaching tools and lab equipment. This summer Sabrina is working with Dr. Philip Marsden at the University of Toronto's Department of Medical Biophysics, focusing on epigenetics and characterizing patterns of DNA methylation.

Nia Pines is entering her third year of college, attending UC Santa Barbara and is pursuing a degree in Communications with an emphasis in Public Relations. She is passionate about social work and would love to promote social welfare as a publicist for a corporation or government organization. In her first two years of college, Nia achieved a 3.1 GPA. In

addition to her academics, Nia is involved in America On Track Mentorship Program and the Alpha Gamma Sigma Honours' Society.

Kendra Schnarr is entering her fourth year at Wilfrid Laurier University with a dual major in English and History. After completing her undergraduate Degree, Kendra hopes to obtain her Master's Degree in Museum Studies where she can then pursue a career in one of Canada's finest museums. Kendra is a member of the History Students' Association at her University where she takes part in history-related activities and fundraisers as well as represents the association to current and prospective students. This year, Kendra is looking forward to volunteering her time with historic organization and sites such as Doors Open Ontario and Castle Kilbride.

Amelia Tritter is entering her third year as a Kinesiology major at the University of Western Ontario. She volunteers at the Fowler-Kennedy Sports Medicine Clinic performing ultrasounds, directing physiotherapy exercises and administrative tasks. Amelia also volunteers at the Exercise & Health Psychology Laboratory, and has worked on a research project aimed to assist chronic smokers in quitting through a combination of exercise and nicotine replacement therapy. Under the guidance of Dr. Lyndsay Fitzgeorge and Dr. Harry Prapavessis, Amelia was given the responsibilities of running the exercise program, assisting with group support sessions and administrative tasks.

Samantha Veights is in her third year at Clarion University. She is majoring in Mathematics and Secondary Math Education, and has achieved a 3.45 GPA. Samantha's goal is to teach math at a high school level as well as coach women's golf. In addition to her schooling, Samantha is a member and Captain of her University's Women's Golf Team and is the team's representative for the Student Athletic Advisory Committee. As a member of both organizations, Samantha participates in various community service activities and charity events.

Shannan Worley is entering her fifth year as a Civil and Architectural Engineering major at the Missouri University of Science and Technology. Throughout her college career, Shannan has maintained a 3.42 GPA. She currently volunteers her time providing breast cancer awareness and education and is involved with Engineers without Borders. After graduation, Shannan hopes to start her career working with either Americorp or Peace Corp. Shannan is a member of Zeta Tau Alpha Sorority and is involved in intramural sports.

Yao "Catherine" Wu is a senior at the University of Illinois at Urbana-Champaign, majoring in Political Science Asian American Studies. Catherine hopes to have a career in Human Resources Management for a multi-cultural organization. She is the current Vice President of the Chinese Undergraduate Student Association at her University. Catherine is also involved in the Midwest Asian American Students Union and is on the Finance and University Relations Committees of AIESEC, the largest student organization in the world.

"Delcan is proud of its award recipients and we are honored to contribute to their education," said Dan Lukasik, Division Vice-President of Delcan's Systems Business, National Operations and Chairman of Delcan's Scholarship Committee. "The applicants were certainly deserving of this recognition and we look forward to sharing in their future accomplishments."

Delcan, founded in 1953 and operating globally, serves a multi-disciplinary client base by focusing on meeting client needs and expectations. Delcan offers innovative infrastructure and systems solutions that combine high-quality with cost-effectiveness. Today, as always, we seek the best talent to build on our 57-year success story. We invite you to explore the possibilities of joining Delcan, an award-winning organization poised for continued growth as a world leader in the consulting engineering field.
