For Immediate Release

Delcan Corporation Contracted to Design a COMPASS Border Advisory System for Ontario, Canada

Ontario, July 7, 2010 – Delcan Corporation, an award winning, multi-disciplinary engineering, planning, management and technology consulting firm, is pleased to announce their most recent project win to develop a COMPASS Border Advisory System for the Ministry of Transportation of Ontario.

As part of Ontario's Intelligent Border Crossing initiative, the Ministry of Transportation of Ontario is utilizing advanced technologies to automatically measure wait times and disseminate the information through roadside signs as well as other media. The focus of the assignment is on four land crossings of the Canada/U.S. international border in the Sarnia and Windsor areas. Delcan's role is to develop the concept, identify messaging strategies, select the technologies, complete the preliminary and detailed designs of the field components and systems, develop the wait time measurement algorithms and design, develop and commission the central software that will interface with the signs and the Ministry's COMPASS traffic management system. This project is scheduled to be completed in the Fall of 2012.

In acknowledgement of this new project win, Mr. Tim Schnarr, Delcan's Vice President of Intelligent Transportation Systems commented, "Delcan is honoured to have been selected for this assignment by the Ministry of Transportation of Ontario. When this system is completed, it will greatly aid in reducing traffic congestion and improve traveler mobility by providing accurate and timely information on traffic conditions at four of Ontario's land border crossings with the U.S."

Delcan, founded in 1953 and operating globally, serves a multi-disciplinary client base by focusing on meeting client needs and expectations. Delcan offers innovative infrastructure and systems solutions that combine high-quality with cost-effectiveness. Today, as always, we seek the best talent to build on our 57-year success story. We invite you to explore the possibilities of joining Delcan, an award-winning organization poised for continued growth as a world leader in the consulting engineering field.
