

PRESS RELEASE
For Immediate Release

Delcan Corporation's Lake County Passage System Project receives the 2008 Best of ITS Award in the Best New Innovative Practices Category at the 15th Annual World Congress on ITS Event in New York.

New York, New York, November 17, 2008 – Delcan Corporation, an award winning multi-disciplinary engineering, management and technology firm is pleased to announce that its Lake County Passage System Project received the 2008 Best of ITS Award in the Best of Innovative Practices Category at the 15th World Congress on Intelligent Transportation Systems (ITS) in New York City.

Delcan was contracted by the Lake County Division of Transportation to design and deploy a traffic management system. The system generates automated interfaces with multiple agencies such as the Lake County Sheriff, Illinois Department of Transportation (IDOT), Illinois State Toll Highway Authority (ISTHA) and other municipalities. The Lake County Traffic Management Center architecture provides a state-of-the-art arterial based event and congestion management systems, integration of County maintenance activities and several other Intelligent Transportation System (ITS) elements including; integrated portable Dynamic Message Signs (DMS), Closed Circuit Televisions (CCTV), integrated arterial traffic signal system coordination across jurisdictional boundaries, Interface to Public Safety Computer Aided Dispatch (CAD), automated Highway Advisory Radios (HAR), and an automate traffic information public web.

“We are indeed delighted that the Lake County Passage Project has been selected from more than 40 entries to win this prestigious award. We share this award with our client, the Lake County Division of Transportation. Their vision to deploy such an advanced Intelligent Transportation System that aids in improving driving conditions and safety of the traveling public in the region has been highly commended by the Lake County citizens, as it should be. Delcan is proud to have been awarded the opportunity to design and deploy the Lake County passage system that comprises several new and technologically advanced features” said Joseph Brahm, Delcan's Regional Vice President for the Mid-Western Region.

Delcan, founded in 1953 and operating globally, serves a multi-disciplinary client base by focusing on meeting our clients' needs and expectations. Delcan offers innovative infrastructure and systems solutions that combine high-quality with cost-effectiveness. Please visit us at www.delcan.com
